Celebrating Our 85th Anniversary

FREEDOM HOUSE
NEW YORK CITY
GALA

January 27, 2027 | The New York Public Library

Freedom House

OUR VISION: A WORLD WHERE ALL ARE FREE.
OUR MISSION: TO EXPAND AND DEFEND FREEDOM GLOBALLY.

A Legacy of Defending Freedom.

For 85 years, Freedom House has defended democracy and human rights worldwide. Founded in October 1941 to rally bipartisan support for US involvement in the struggle against Nazi Germany, Freedom House has grown into the leading American organization dedicated to advancing freedom globally.

Today, democratic institutions face unprecedented pressure from authoritarian regimes. But around the world, democracy's defenders are fighting back. Today is a moment for honoring extraordinary leaders while galvanizing support for the urgent work ahead.

We inform the world about threats to freedom.

For more than 50 years, Freedom House has produced the world's most trusted analysis on political rights and civil liberties, covering 200+ countries and territories. Our research equips policymakers, businesses, and civil society with the data needed to understand risk, expose repression, and defend democratic norms.

We mobilize leaders to act.

Freedom House elevates the voices of dissidents and human rights defenders to the highest levels of government and international institutions including the US Congress and executive branch, their counterparts in other democracies, the European Parliament, the Group of Seven, and the United Nations. We build democratic coalitions that fight for a freer world.

We support those on the front lines.

Since 2007, Freedom House has assisted tens of thousands of activists and civil society organizations across 170+ countries, providing emergency relocation, legal aid, medical care, secure technology, and other lifesaving support. We also lead global campaigns to secure the release of imprisoned activists.
